Megaphone Mailers are Flexible

Pick a template or upload your own design.

Upload a list* or we can build one for you:

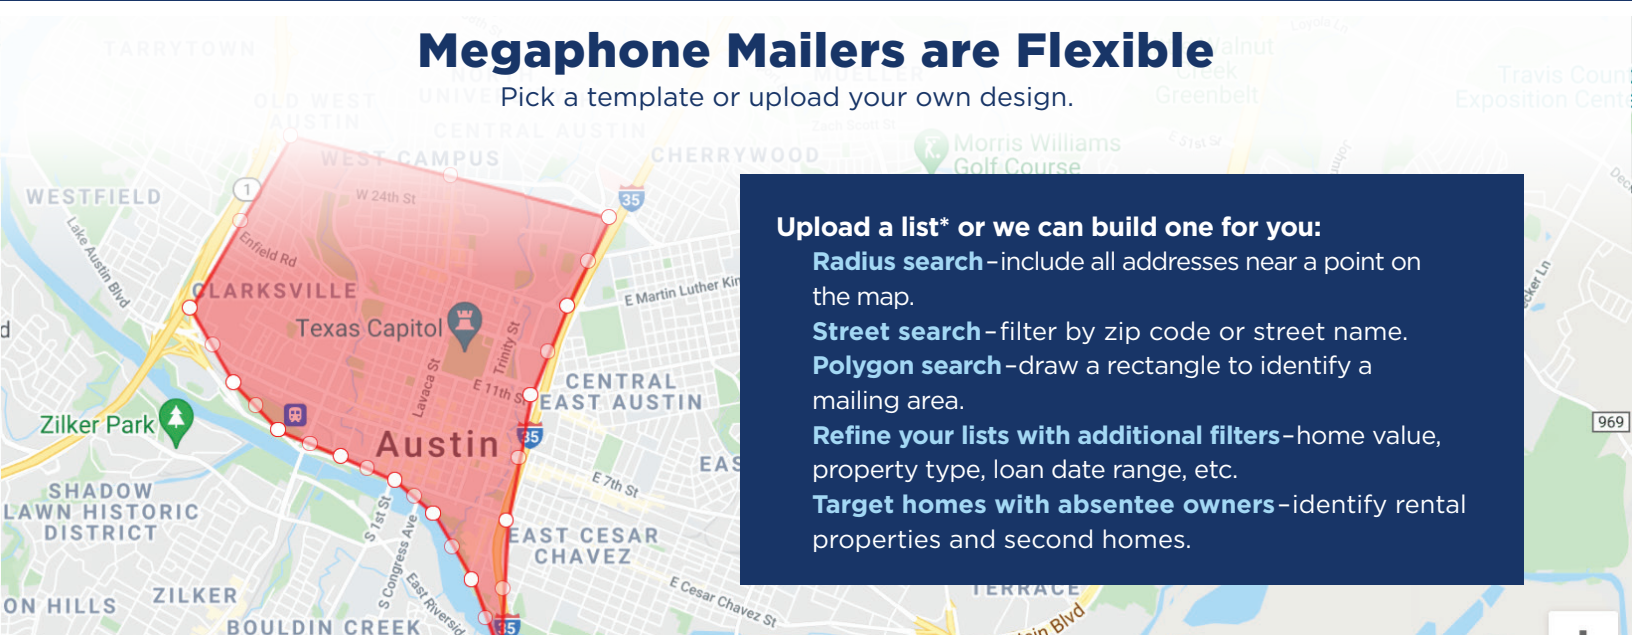

Radius search—include all addresses near a point on the map.

Street search—filter by zip code or street name.

Polygon search—draw a rectangle to identify a mailing area.

Refine your lists with additional filters—home value, property type, loan date range, etc.

Target homes with absentee owners—identify rental properties and second homes.

*Lists are only used for direct mail. Ad campaigns are targeted using other criteria.
